ABOUT ME

Highly motivated and detail-oriented front-end web developer with a Bachelor of Computer Applications (BCA) and current MBA studies in Data Science and Business Analytics. Proficient in HTML5, CSS3, JavaScript, and React.js, with a strong understanding of responsive design and cross-browser compatibility. Demonstrated ability to create aesthetically pleasing and functional websites, as showcased in personal projects. Eager to contribute to a dynamic team and further develop front-end development skills.

PROJECTS

The-roses-of-vercors

- Developed a minimalist and aesthetically pleasing website using HTML, CSS, JavaScript, and Swiper.js.
- Implemented seamless responsiveness across various devices.
- Integrated a maps section and a real-time weather forecast feature using asynchronous JavaScript and API integration.
